## Subject: Update on Pricing Policy and Terms

Dear Valued Customers and Dealers,

I hope this message finds you well. As we navigate the evolving landscape of market conditions and customer needs, we are continuing the updates to our pricing policy and terms to better serve you.

1. **Market Stability and Future Outlook:** The markets have shown signs of stabilization during 2024, however there is a risk for steel prices to increase in 2025. We will continue to review and update our pricing policy as we plan ahead for 2025 and in to 2026.
2. **Pricing Finalization for Truck-Mounted Units:** We will continue to finalize pricing for all truck-mounted units two weeks prior to production. This timeline allows us to align pricing with our suppliers and ensure accuracy in our cost estimates.
3. **Pricing Review for Other Products:** As always, pricing for all other products will undergo review 60 days prior to production. If a price adjustment is necessary, we will send you the final quote with the total unit price so you will have the option to accept the pricing or cancel the order without penalty. If no price adjustment is necessary, pricing will be considered firm and will proceed as ordered.
4. **Quote Validity Period:** Quotes will continue to be valid for a period of 30 days.

We value our partnership with you and appreciate all your support. We're committed to keeping our pricing fair and transparent and are here to help with any specific issues that arise. If you have questions or need more info about these updates, just reach out. Your satisfaction and success mean a lot to us, and we're excited to keep working together in the coming year.
