Request for Proposals

616 N Broadway Roof Replacement

General Information:

Introduction:

The City of Pittsburg is seeking qualified roofing contractors to submit proposals for the complete removal of existing bituminous roof and replacement with a thermoplastic polyolefin membrane (TPO) system. Contractors must possess or obtain a Class E License with City of Pittsburg, and be registered as a roofing contractor with the State of Kansas prior to any execution of contract documents. Contractors shall provide all labor, materials, equipment, and services for the work to be performed. When applicable, all applications shall follow 2012 International Building Code.

Location of Project:

616 N Broadway Pittsburg KS 66762

Scope:

1. Scope of Work

a. Existing Roof Removal

- Removal of all roof penetrations, flashings, gutters, and downspouts.
- Removal of all roof top equipment and related piping.
- It is the intent for all removals to have all materials removed to the structural wood deck or masonry parapet substrate. This would include any excess adhesives or sealants.
- All materials and debris removed shall be disposed of according to regulations.

b. Substrate Preparation

- Wood for repair of trusses shall be pressure treated lumber of the same size or larger of that being repaired or replaced
- Sheeting shall be ¾" – exterior grade plywood
- Inspect deck and report structural concerns
- Replace damaged decking as needed for installation of roofing materials as per manufacturer's recommendations.

- Contractor to remove and reinstall any wood blocking at rear of building or material transitions to allow for proper adherence of roofing system. Rough carpentry framing shall be set as a unit cost measure based in lineal feet.
- Replace decking at locations where penetrations were removed
- Contractor should include 2,200 square feet and decking that will need to be replaced. An allowance line-item will be included in bid for additional decking replacement purposes.
- A line-item unit cost shall be included in proposal for replacement of damaged roof truss top cords. This cost shall be based on a lineal foot price of cord to be replaced.

c. Insulation Installation

- Contractor shall provide and install 2" thick Polyisocyanurate insulation in compliance with manufacture's requirements for application with wood decking and TPO roof system.
- 2-inch Polyiso Insulation- 4'X8' panel minimum
- Approvals/Standards
 1. ASTM C 1289 Type II, Class 2, Grade 2 (20 psi)
 2. ASTM C 1289 Type II, Class 2, Grade 3 (25 psi)
 3. UL 1256, 790, 263
 4. FM 4450, 4470

d. TPO Roof System Installation

- TPO membranes must comply with ASTM D6878, ASTM D751, D2137, D1204, D1149, D471, D751, D1876, and D573 which evaluates thickness over scrim, tearing strength, elongation, brittleness, linear dimension change, Ozone resistance, seam strength, and heat aging
- Thickness: Common specifications include 60 mil (0.060)
- Composition: A tri-laminate sheet consisting of a TPO polymer base, a polyester-reinforced fabric scrim (middle layer), and a TPO top ply.
- Solar Reflectance: High-reflectance white membranes typically meet Energy Star and Cool Roof Rating Council (CRRC) standards, with initial solar reflectance values around 0.78 and a Solar Reflectance Index (SRI) near 100.
- Color – White
- Widths – 12 to 16 feet wide
- Installation shall be mechanically fastened.
- Install all flashings, termination bars, adhesives, and accessories as necessary to provide a complete watertight roofing system.
- Contractor shall ensure positive drainage across entire roof.

- Manufacturer's representative shall inspect roof upon completion, and a copy of the inspection report shall be delivered to the City.
 - All warranties will commence only after manufacturer's written approval.
- e. Metals / Flashings
- Contractor to provide and install all parapet cap flashings
 - Contractor to provide gutter and related downspouts.
 - Flashing – 22 gauge painted metal- White
- f. Warranty Or Guarantee
- Material Warranty: Provide membrane manufacturer's limited warranty agreeing to replace material that leaks due to manufacturing defects within 15 years.
 - Enhanced Material Warranty: Provide membrane manufacturer's limited warranty agreeing to replace material that leaks due to manufacturing defects and cost of labor to correct leaks within 15 years.
 - System Guarantee: Provide manufacturer's system guarantee.
 1. Term: 15 years
 2. Liability Limit: No dollar limit on covered repairs.
 3. Scope of Coverage:
 - a. Repair of covered leaks resulting from manufacturing defects, ordinary wear and tear, or workmanship in applying the covering materials, subject to certain exclusions.
 - b. Leaks due to winds up to 90 mph (145 km/hr) excluding hurricanes and tornados.
 - c. Hail up to 1 inch (25 mm) in diameter.
 - d. Extended Correction Period: Correct defective work within 2-year period commencing on date of Substantial Completion.
- g. Additional Requirements
- Access to roof shall be made via the exterior of the building. During the commencement of the work the City will temporarily shut down the alleyway directly behind the building to help facilitate the work.
 - Access to the interior of the building will be allowed only upon request for specifically defined work to commence.
 - Contractor to the best of their ability shall limit prolonged exposure of the structural deck to moisture and "ponding conditions"

**CERTIFICATION REGARDING
IMMIGRATION REFORM & CONTROL**

All Contractors are expected to comply with the Immigration and Reform Control Act of 1986 (IRCA), as may be amended from time to time. This Act, with certain limitations, requires the verification of the employment status of all individuals who were hired on or after November 6, 1986, by the Contractor as well as any subcontractor or sub-subcontractor. The usual method of verification is through the Employment Verification (I-9) Form. With the submission of this bid, the Contractor hereby certifies without exception that Contractor has complied with all federal and state laws relating to immigration and reform. Any misrepresentation in this regard or any employment of persons not authorized to work in the United States constitutes a material breach and, at the State's option, may subject the contract to termination and any applicable damages.

Contractor certifies that, should it be awarded a contract by the City, Contractor will comply with all applicable federal and state laws, standards, orders and regulations affecting a person's participation and eligibility in any program or activity undertaken by the Contractor pursuant to this contract. Contractor further certifies that it will remain in compliance throughout the term of the contract.

At the City's request, Contractor is expected to produce to the City any documentation or other such evidence to verify Contractor's compliance with any provision, duty, certification, or the like under the contract.

Contractor agrees to include this Certification in contracts between itself and any subcontractors in connection with the services performed under this contract.
