### **Street Work on K-126 (East 4<sup>th</sup> Street) Begins July 10<sup>th</sup>, 2017**

**PITTSBURG, Kansas** – Work on the KLINK Resurfacing Project on K-126 (East 4<sup>th</sup> Street) will begin on Monday, July 10<sup>th</sup>, 2017. Work will include milling of the existing asphalt pavement, concrete curb and gutter work, construction of ADA ramps at the intersections, overlay of new asphalt pavement and pavement marking on K-126 (East 4<sup>th</sup> Street) from the KCS Overpass to Free King Hwy.

Due to the nature of the work, changes to traffic patterns and traffic delays are expected. Traffic will be reduced to one lane through the work zone. Side streets will be temporarily closed as the pavement operation moves through these intersections. All work is anticipated to be completed by August 1<sup>st</sup>. Motorists are encouraged to seek alternate routes when possible, to use extreme caution when traveling in the area of construction and be aware of workers in the WORK ZONE.

The City of Pittsburg appreciates the patience of motorists and residents while this work is being performed. Please contact the Public Works Department at (620) 231-4100 with questions regarding this project.
